Article type: Research article (author-review version)

Acknowledgments and funding

The authors received no financial support for this research.

Author contributions

Zhongfei Tian: [actual contributions to be confirmed]
Xiang Wang: [actual contributions to be confirmed]

Competing interests

[Each author must confirm relevant financial and non-financial interests. No declaration of absence is inferred.]

Review status

Xiang Wang has reviewed the preceding manuscript. This integrated v9 incorporates the completed team price analysis and descriptive context without new market estimation in the editorial review. No funding is confirmed. Actual contributions, competing interests and a lawful data-access arrangement must be completed before submission; preceding review is not represented as approval of all later changes.

ORCID identifiers and department names have not been supplied and are not invented. The corresponding contact and author order above follow the user-provided information.
